PLEASE READ.

It is indeed very gratifying to me to be able to offer as my last sale "'way down in Texas"—This fine collection of Mr. P. H. Griffith. And as you will readily note from the arrangement of the catalogue, I have spared neither labor nor expense in making the catalogue and sale a memorable one. It is now with you, Mr. Collector, whether or not this sale shall be as successful as I believe it surely deserves.

Mr. P. H. Griffith has been interested in numismatics for over twenty years.. The collection herewith offered at absolute sale, is the results of his efforts in this science. And it will be found, I believe, as a whole, about the most complete of its kind ever offered—especially in the silver mint marks, which contains many specimens that are offered only in very rare instances.

The SILVER DOLLARS lack only two dates of being complete, and include very choice specimens of the 1794, 1839, 1851, 1852 and 1858.

The HALF DOLLARS are complete with the exception only of the priceless 1838 0 and 1853 without rays and arrows; but includes the two varieties of 1796 and 1797 in rare state of preservation. Also about complete in the branch mints including a semi-proof 1878 S.

Among the QUARTER DOLLARS there is an uncirculated 1853 without rays and arrows, and very nice 1796, 1804, etc. And among the mint marks there is a specimen of the 1849 O.

The DIMES, HALF DIMES and minor coins are about complete, with many of the rare dates in beautiful state of preservation, including a brilliant proof Dime of 1859 with reverse of 1860.

The collection of LARGE CENTS is far above the average; many of the early dates are in choice state, and includes an uncirculated 1793.

The GOLD COINS in this collection are far from the ordinary offering. The Eagles include such rarities as the 1796 and 1797 with small eagle reverse. Among the half eagles are the 1796 and 1834 with motto—uncirculated. The \$3.00 and \$1.00 gold pieces include many rare and choice dates, with many rare mint marks among the dollars.

The Quarter Eagles include an extra fine specimen of the excessively rare 1842 P. Mint.

Mr. Griffith, while a native Californian, did not make a specialty of the Pioneer gold, but being naturally interested in everything pertaining to the West, secured a very representative collection of these rare pieces, among which are five \$50 gold pieces, one of which is the rare Wass Molitor & Co. round "slug" in unusually fine state of preservation; besides a good number of other rare specimens of the Carolina, Colorado, California and Utah gold coins.

The Paper Money Collector will find sufficient interest in the Fractional Currency and especially in the large collection of Colonial and Continental notes, which is one of the largest collection offered in recent years.

THE DESCRIPTION OF THE COINS.

In cataloging this large collection, I have used my most careful judgment, and endeavored to be as fair and liberal in the description of the conditions of the coins as I knew how. I realize that there is at times considerable difference of opinion regarding the "grading" of coins. Every collector has a right to his opinion. I respect the opinion of every honest collector. And although I know that every lot in this catalogue is described most fairly, I am open for corrections, and guarantee satisfaction to every bidder.

REGARDING BIDDING.

I respectfully solicit that you send me your bids for any lot or lots that interest you—and surely in a sale of this importance there are SOME lots of interest to you. When I receive your bids I consider myself as your agent and buy the lots for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I charge no commission for executing bids.

TERMS OF SALE.

All bids are entered as received. The highest bidder to be the buyer. Unlimited bids get the lot at an advance of 5% over the highest bid.

No lots are broken under any circumstances; they are sold as catalogued at so much PER PIECE.

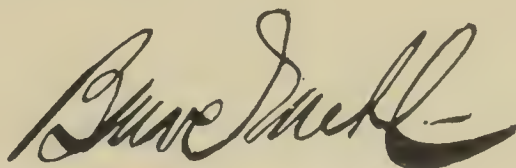

I guarantee all coins and notes to be genuine. This guarantee holds good indefinitely.

THE PRICE LIST OF THIS SALE.

I will issue a neatly printed list, showing prices realized for each lot of this sale, for only 50 cents. The list will be the same size as the catalogue pages, and will be mailed flat—in a cardboard, so that the catalogue with plates and the price list will make a very attractive as well as valuable and up-to-date guide to the market value of the United States Coins.

In conclusion I wish to state that I have endeavored to merit the confidence placed in me by Mr. Griffith by giving my best efforts to issue a catalogue worthy of his collection. And I guarantee to execute your bids at this sale in a manner that will certainly merit the confidence and any favors that you may extend me. I want this sale—the last one I will hold in Texas—to be an everlasting, pleasant recollection of my numismatic efforts in Texas.

Yours very truly,

Fort Worth, Texas, February 10, 1912.

Special Notice:

I wish to call your attention to the Price-List of this sale which is to be issued showing amounts realized for each lot in this sale. It will be neatly arranged and printed on the same quality and size paper as this catalogue, and will be mailed flat properly protected against folding in the mails. Price for list ONLY FIFTY CENTS.

Please remember that the United States silver coins offered in this sale is about the most complete ever offered. This catalogue with price list will make a ready and valuable reference book to the value of the United States silver coins of ALL MINTS, as well as of the gold coins and paper money.

There is no book on the market that may be had at \$3.00 or more that is printed as attractively or contains the information that this catalogue and price list will give for only 50 Cents.

This is I believe the first plate-catalogue to be distributed free in this country. The usual charges for a catalogue of this size and importance is \$1.50 to \$3.00. The price lists alone sell at \$1.00 to \$1.50.

The Price-List of this important sale containing over eighteen hundred (1800) lots will be supplied at only FIFTY CENTS (cash with order.)

The price of fifty cents for a price list of an eighteen hundred lot sale is surely cheap enough to interest every collector who is at all interested in coins.

A very convenient Order-Card is enclosed with this Catalogue for your convenience. Send in your order NOW, before you forget.

B. MAX MEHL, Numismatist, Fort Worth, Texas

I have a few price lists of the Cowell sale, total \$12,717.89---which I will supply as long as they last at only 50c. The Catalogue with price list is \$1.00.

Lot No. 431.

The Excessively Rare Dime of 1859 with Reverse of 1860.

1859 Obverse same as preceding lot, Liberty seated, thirteen stars and date. Reverse, a wreath of corn enclosing ONE DIME. **Magnificent brilliant proof.** Sharp impression with partly wire edge. Considering the number of specimens offered at auction or private sale, I believe it to be a much rarer coin than the dime of 1804. None of the great collections offered in recent years contained a specimen. Private and Territorial Gold Coins

The Private and Territorial gold coins were issued by private firms in the Carolinas and Georgia in the 30's, and in the West during the "Pioneer" days. While not a legal coinage, they were issued by permission of the Government, and were readily accepted and passed current at a time when there was a pressing need of money with which to transact the business of the country.

Without exception, any of the "Pioneer" coins are rare and highly interesting. The coinage was very small, and the greater percentage of the coinage was remelted.

UTAH.

Coins Issued by the Mormons.

- 1420 1849 \$5.00. Bishop's hat above eye. Around border, HOLINESS.TO.THE.LORD. Rev. clasped hands beneath which is the date, 1849; around border, G. S. L. C. P. G. FIVE DOLLARS. (The initials stand for "Great Salt Lake City Pure Gold"). Plain edge. Perfectly centered; good strong impression, much stronger impression than I have seen on these coins for some time, as they are usually found weakly struck. Very fine for coin. Very rare. Highly interesting. **See Plate.**
1421 1860 \$5.00. Obv. Lion reclining to left; date below, around, in Mormon characters HOLINESS TO THE LORD. Rev. eagle with outstretched wings standing behind a bee hive, below which is 5 D. Around, DESERET ASSAY OFFICE PURE GOLD. Milled edge. Obv. good. Rev. seems to have been used for a button, the removal of which obliterated the bee hive, but otherwise it is good, and an acceptable specimen of this rare and very interesting coin. On this coin all the interesting Mormon emblems are depicted—the bee hive, eagle and lion.

It may be of interest to the collector of these interesting coins to know that the Deseret Museum at Salt Lake City, owned by the Mormon Church does not contain a single specimen of the regular coins issued by the Mormons. This information was given me by Dr. Talmage, the Curator, during my recent visit to that city. The Museum possesses, however, the original dies, also a complete set of trial pieces struck in gold on one side only. These, Dr. Talmage informed me, are the first impressions of the dies.

This unique set contains a specimen of the \$5.00 gold piece of 1860 with lion reclining and his head resting on its paws—an exact reproduction of the stone lion at the "Lion House"—and with mountains in rear. To the best of my knowledge, no specimen of this variety is known struck on the obverse and reverse, but Dr. Talmage informed me that it is known that such coin was struck and that Brigham Young wore one as a watch charm, but its present whereabouts is unknown.
